eLearning module: Data protection

Our effective eLearning module on data protection uses audio and video to teach you in just **15 minutes** what you need to be aware of when it comes to data protection and what dangers are lurking.

A large number of SMEs and large companies with a total of **over 10,000 employees** have already successfully completed our module on data protection. Convince yourself of the quality and **test the short extract now without obligation: www.infosec.ch/test-dsg**.

Your advantage:

- **Motivating:** Short training units are more motivating than long sequences. This module takes just 15 minutes to complete.
- **Customisable:** In order to offer your employees maximum practical relevance, the module can be customised to your company's requirements and circumstances.
- **Varied:** The learning content is delivered using different techniques (e.g. audio and video) and is smartly designed.

We know how to present complex topics such as data protection in an understandable form.

I look forward to hearing from you and am at your disposal for any questions.
